02 ATI Getting A Makeover?

The original bold ATI & Advanced Telecommunications of Illinois logo from 1983 had a great run, but after 35 years it is being retired. We are now so much more than a telecommunications company and can support clients across the entire country as well as the world. Therefore, I'm happy to introduce our new logo which includes the well-known letters "ATI" but now adds a little color to mix. ATI is no longer an acronym but

simply stands for the company that we've built over the past 35 years with all our great employees and customers by our side.

The logo isn't the only thing getting made over, you'll also start seeing changes with our: website, booklets, flyers, letterhead, proposals, business cards, apparel, and the products that we can now offer and support. Learn more on page two.

GET READY, SET, WE'VE MOVED!

We're all settled into our brand-new office, 7 mi to the east in Lisle. The building is a class A office facility called Corporetum III

ATI & RingCentral, A Recipe For Success

ATI, in 2017 went from a being a new-player with RingCentral to number 15 in the nation. Congratulations to all.

We Are Rebranding The New ATI

“While ATI may look different our “Total Customer Care” will always stay the same”

~Jim Shaver

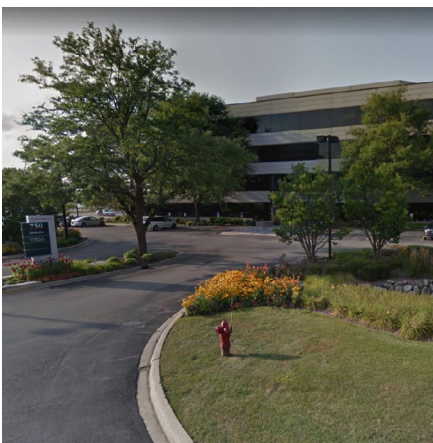

The new ATI logo and branding is in full swing. Let us know what you think.

We’ve also recently launched a brand new website to highlight our products and services and to keep you up to date on all the latest events and happenings in the telecom and cloud stratosphere. We hope the site makes things easier to navigate and understand, but if you see anything missing, or have suggestions, don’t hesitate to let Jeff Becker (jbecker@aticti.com) know. We are also always looking to add content, so if you’d like to write about anything even remotely related to the tech world we have an ongoing blog and would be more than happy to publish your articles.

Since 1983 we’ve been Chicagoland’s go to for all things telecom, PBX, and network services related. Nothing is changing here, as we’re still one of the top-rated Mitel partners in the Chicagoland area, able to remedy issues onsite, and answer service calls 24/7. However, with the expansion of the cloud our product and services portfolio is almost limitless. We have relationships with top tier cloud providers around the country, and can leverage their expertise combined with our internal project management and support team. Did you know ATI can now provide: Office 365, Skype for Business, IaaS, Disaster Recovery, SD-WAN, Managed Security, Hosted Call Centers, & DaaS?

Our Values reflect who we are & what we’ve stood for as a company since 1983, providing & recommending the best technology solutions to our clients.

- Total Customer Care
- Quality
- Integrity & Accountability
- Teamwork
- Respect For People

ATI’s New Location!

We’re extremely excited for our new location in Lisle, right near the intersection of I-355 and I-88. We have a new name, a new focus and a new office. Our new location features a no added cost health club with showers, a large conference space available for reserve and host of fun activities and events sponsored by the building management.

We are looking forward to continuing to provide excellent sales production and superior support to our customers from our new facility. If you have any questions about the building or its amenities please contact Adam Erickson.

New Address:
750 Warrenville Road, Suite 250
Lisle, IL 60532
